

Clear

Machine glass washing detergent

Description

Clear is a low foam liquid detergent formulated especially for use in glass washing machines.

Features and Benefits

- Can be used in all types of mechanical glass washing machines
- Has exceptional cleaning powers – leaves glassware sparkling clean
- Clear will not affect the head or foam retention of beer glasses

Use Directions

Aquamatic Machines

Dilute Clear 1:5 with water and add to detergent tank.

Dishlex Machine

Use Clear at full strength and adjust machine to deliver 8ml per cycle.

Eswood Machines (Models CI and IW)

Dilute Clear 1:3 with water and add to detergent tank.

Johnston Machines (Glassmaster, Junior and Universal models)

Dilute Clear 3:1 with water and add to detergent tank.

Norris Machines (Models B, D, E, & E17)

Dilute 1:1 with water.

Models G & F.

Use Neat.
