

Odorsafe

Odour neutralising surface treatment

Description

Conventional deodorants or masking agents are used to disguise odours by “blanketing” them with a fragrance. Odorsafe is totally new technology which actually destroys or neutralises malodours. Odorsafe is made from extracts of Australian plants. These plant extracts encapsulate and neutralise odour molecules. Odorsafe also contains a powerful sanitiser to kill any odour producing microorganisms

Features and Benefits

- The plant extracts used in Odorsafe are non-toxic. In fact many of the plant extracts have been used as food flavours for many years.
- Odorsafe is readily biodegradable, it biodegrades very quickly producing NO hazardous by-products.
- Odorsafe is totally safe for use in septic tanks and sewerage treatment plants and will not affect aerobic activity in industrial settling ponds. Odorsafe will not be detrimental to marine life.
- Odorsafe is suitable for use in toilets, washrooms, bars, food and garbage disposal areas, rubbish bins, drains, animal houses and hoter areas that require disinfection and where odours are a problem.

Use Directions

Odorsafe can be used to eliminate malodours in any situation where odours are a problem.

Clean area and remove all visible soil.

Initial application: Add 100mL of Odorsafe per litre of water and mop onto surfaces.

Maintenance Application: Add 50mL of Odorsafe per litre of water and mop onto surfaces.

Safety Information

Refer to our product safety information sheet (PSIS) for more information or consult your Chemform representative for further assistance.

At Chemform we care about the environment, our community and your safety by providing environmentally responsible products. The CHEMFORM GREEN range of products provides performance, quality and safety, as well as environmental sustainability by meeting our strict criteria:

- ✓ **Products containing detergents must use only those classified as readily biodegradable.**
- ✓ **Whenever possible, products made from plant based renewable resources are selected.**
- ✓ **Our CHEMFORM GREEN range contains no phosphates, oil-based hydrocarbons, chlorine, chlorinated hydrocarbons, carcinogens, alkyl phenol ethoxylates or heavy metals.**

- ✓ Our CHEMFORM GREEN range is safe to use. Products must be classified as non-hazardous and non-dangerous.
- ✓ Industrial degreasers will be quick-breaking according to our stringent definition.
- ✓ Waste will be minimised as we believe that the biggest environmental burden on the Earth is waste. All packaging used in the CHEMFORM GREEN range is recyclable, and can be returned to Chemform for processing.
