

No Rinse Sanitiser #9

No rinse sanitiser

Description

No Rinse Sanitiser #9 is a superior quaternary ammonium compound which has broad spectrum activity against gram-positive and gram-negative bacteria. Its viricidal activity has been confirmed by independent laboratories and is effective against Herpes simplex Types 1 and 2, Influenza A2 (Hong Kong) and Vaccinia. No Rinse Sanitiser #9 is eight times more effective on fungi than conventional quaternary ammonium compounds.

Features and Benefits

- No Rinse Sanitiser #9 provides excellent microbial control in water containing up to 400 ppm hardness.
- No Rinse Sanitiser #9 is safe to use on food processing equipment, utensils and food contact surfaces and articles before contact with food, when the product is diluted with potable water and used in accordance with label directions. Reference FDA CFR21 178.10.10

Use Directions

Surfaces to be treated with No Rinse Sanitiser #9 must be thoroughly cleaned and rinsed first. Do not mix No Rinse Sanitiser #9 with any other chemicals. It is recommended that new solution be prepared daily to ensure optimum efficacy of the product. Apply to surface that is to be sanitised and allow to dry. No rinsing is required.

As a No Rinse Sanitiser

The recommended dilution for sanitising food contact services is to mix 5 mL of No Rinse Sanitiser #9 to 1 litre of water. Apply by spray, soak or manual method.

General Sanitisation

For non-food contact surfaces such as floor and walls apply at a dose rate of 15 mL per litre of water.

Safety Information

Refer to our product safety information sheet (PSIS) for more information or consult your Chemform representative for further assistance.

2x5L, 20L

At Chemform we care about the environment, our community and your safety by providing environmentally responsible products. The CHEMFORM GREEN range of products provides performance, quality and safety, as well as environmental sustainability by meeting our strict criteria:

- ✓ Products containing detergents must use only those classified as readily biodegradable.
- ✓ Whenever possible, products made from plant based renewable resources are selected.
- ✓ Our CHEMFORM GREEN range contains no phosphates, oil-based hydrocarbons, chlorine, chlorinated hydrocarbons, carcinogens, alkyl phenol ethoxylates or heavy metals.
- ✓ Our CHEMFORM GREEN range is safe to use. Products must be classified as non-hazardous and non-dangerous.
- ✓ Industrial degreasers will be quick-breaking according to our stringent definition.
- ✓ Waste will be minimised as we believe that the biggest environmental burden on the Earth is waste. All packaging used in the CHEMFORM GREEN range is recyclable, and can be returned to Chemform for processing.
